Mandate City-Level Development of Emergency Backup Systems

Why this petition matters

As a concerned citizen, I am deeply troubled by our reliance on the global supply chain for basic necessities. This dependence not only exposes us to potential contamination and disease (as witnessed during the COVID-19 outbreak) but also supports unethical labor practices in countries where modern slavery is prevalent. Our current system fails to protect us during emergencies such as disease outbreaks or blackouts, leaving many vulnerable and without access to essential resources like water, heating, food, clothing, and shelter.

To address this issue, we must require our city to research, develop and maintain self-sufficient backup systems(1,2) that can meet citizens' basic needs during major disasters without compromising our local environment or health. These systems should be designed with the capacity to function independently of external aid or resources.

According to the United Nations Office for Disaster Risk Reduction (UNDRR), cities that invest in disaster risk reduction measures can prevent significant losses both in terms of lives and infrastructure (UNDRR Report 2019). Moreover, a study published by the National Bureau of Economic Research indicates that increasing local self-sufficiency can reduce vulnerability to global supply chain disruptions (NBER Working Paper No. 27439).

By mandating these changes at a city level we are not only safeguarding our community against future crises but also taking an ethical stand against exploitative labor practices abroad.

Please sign this petition urging our city officials to prioritize local self-sufficiency through the development of emergency backup systems.

Thank you for your consideration.

(1) self-suf·fi·cient, adjective; needing no outside help in satisfying one's basic needs, especially with regard to the production of food

(2) backup systems include but are not limited to: clean water, food, shelters and essential tool production and delivery systems not reliant on electrical or petroleum powered mechanisms. Some possibilities include but are not limited to harvesting natural gasses from waste systems and incorporating gravity plumbing wherever possible.

PUBLIC MANDATED TRANSPORTATION MEDICAL HEALING CENTERS

the best groups in your city

I. Public Mandate Emergency Disaster back-up Essential Hydration and Nutrition Systems

(a.) Spirulina Algae as the most efficient source of nutrition and bio-fuel (or also compressed pellets for stove use), in regards to space and daily yield of 2x its biomass.
(b.) Methane Compost Piles Can produce Gas that can be supplied alongside
(c.) Electric-free Gravity-Plumbing Water Delivery System; the water delivery system should include a natural electric-free filtration device such as can be utilized by a single precipitation catcher (atmosphere dome/cover/wrap).

II. Public Mandate Universal Health Care Red Cross Centers, Holistic Medicine, Warming and Emergency Shelters.

(a.) Raising the bar of indoor buildings with ventilation to illuminate/eliminate* all potential contaminates by strong negative pressure vacuum air outtake and filtration system.
(b.) Streams flowing into diverse array of pools and a bountiful garden filled with a diverse and numerous arrays of flora and fauna.
(c.) Speedy electric (single use or passenger), light weight low impact vehicles.
(d.) The biofueled speed train runs between centers all along west coast as different environments encourage different health condition environments of air, soil, water and food holistic health (see more, III(a.)) management and care team.

III. Public Mandate Inter and Inner City/Center Transport Speed Rail.

(a.) Along west coast corridor powered self-sufficiently and sustainably by biofuel algae plants.
(b.) Resolving inner city, work/ school/ recreation traffic injuries and deaths while also recycling excess toxic algae contamination sites in local rivers and lakes.. Respecting valuable cultural or aesthetic landscapes and scenery (could build underground)

IV. Public Mandate Nonprofit News Collective and Archive.

(a.) For Real News and Direct Solutions to Local and Global Issues People in your area are already engaged in solving. One place to get all the info from all

Declaration of Independence: A Transcription
In Congress, July 4, 1776.
The unanimous Declaration of the thirteen united States of America,
CONSTITUTION OF THE UNITED STATES
We the People of the United States,
PREAMBLE
Whereas the peoples of the United Nations have, in the Charter, reaffirmed their faith in fundamental human rights and in the dignity and worth of the human person, and have determined to promote social progress and better standards of life in larger freedom,
Whereas the United Nations has, in the Universal Declaration of Human Rights, proclaimed that everyone is entitled to all the rights and freedoms set forth therein, without distinction of any kind, such as race, colour, sex, language, religion, political or other opinion, national or social origin, property, birth or other status,
Whereas the child, by reason of his physical and mental immaturity, needs special safeguards and care, including appropriate legal protection, before as well as after birth,
Whereas the need for such special safeguards has been stated in the Geneva Declaration of the Rights of the Child of 1924, and recognized in the Universal Declaration of Human Rights and in the statutes of specialized agencies and international organizations concerned with the welfare of children,
Whereas mankind owes to the child the best it has to give,
Now therefore,
The General Assembly
Proclaims this Declaration of the Rights of the Child to the end that he may have a happy childhood and enjoy for his own good and for the good of society the rights and freedoms herein set forth, and calls upon parents, upon men and women as individuals, and upon voluntary organizations, local authorities and national Governments to recognize these rights and strive for their observance by legislative and other measures progressively taken in accordance with the following principles:
Principle 1
Principle 2
Declaration of the Rights of the Child, G.A. res. 1386 (XIV), 14 U.N. GAOR Supp. (No. 16) at 19, U.N. Doc. A/4354 (1959).

TITLE II—INJUNCTIVE RELIEF AGAINST DISCRIMINATION IN PLACES OF PUBLIC ACCOMMODATION
SEC. 201. [42 U.S.C. 2000a] (a) All persons shall be entitled to the full and equal enjoyment of the goods, services, facilities, privileges, advantages, and accommodations of any place of public accommodation, as defined in this section, without discrimination or segregation on the ground of race, color, religion, or national origin.
(b) Each of the following establishments which serves the public is a place of public accommodation within the meaning of this title if its operations affect commerce, or if discrimination or segregation by it is supported by State action:
(1) any inn, hotel, motel, or other establishment which provides lodging to transient guests, other than an establishment located within a building which contains not more than five rooms for rent or hire and which is actually occupied by the proprietor of such establishment as his residence;
(2) any restaurant, cafeteria, lunchroom, lunch counter, soda fountain, or other facility principally engaged in selling food for consumption on the premises, including but not limited to, any such facility located on the premises of any retail establishment; or any gasoline station;
(3) any motion picture house, theater, concert hall, sports arena, stadium or other place exhibition or entertainment; and
(4) any establishment (A)(i) which is physically located within the premises of any establishment otherwise covered by

Date: 11/22/2024
To: Google & Friends
From: SJ. Barrett
Subject: Invitation to Collaboration

Hello, I am the founder of Conscious Culture - End the Schism Ministries whose mission is to increase individual & collective awareness, to reduce and respond-ability and Unity-porency & accountability. Inclusive trust-worthy & reliable online fundraising options for accounting, governance, self-representative democratic discussion forum, common area Backup systems and archive, & self sufficient by diversifying a few areas in the works of day to day R&D

① establish CC spotlight program to foster Real News (local, independent, non-profit) reporting and broadcasting collective

② establish Public Commons maker studio & stock of art tools partnered with local libraries & museums for community led education & DIY research assistance.

All while engaging on the Transparency Initiative, with you as my Alibi via 24/7 audio, video & location documented: Google tools such as Fit, latest in development: Google Glasses, cell phone, external batteries, local and online Data storage & access.

1. consent & Neuro comm. system & consideration
2. Facebook 5. encoding (3-5 hours per human max. use)

THE TRANSPARENCY INITIATIVE

Hello Google & Friends, I need your help as an Alibi and witness [to enter/explore and open-source the collective conscious/conscience/Super Ego]. Recently, I have been subject to: false narrative, defamation, fraud, extortion, outright lies, denials and toxic make-belief. I was hoping you would view my work on YouTube, Facebook and Archive.org, and consider partnering with me for a "Real News" (local, independent, non-profit) Reality TV Show, some livestream & some edited into brief episodes: Reminiscent of an invented Truman Show, where one or multiple characters record & broadcast public matters in public spaces. The Plot will allegedly revolve around the investigation into the mysteries of the Soul/conscience, its seeming lack at times when revealing collective Crimes against Humanity, while discovering the beautiful and often unheard stories of real efforts many are making without the incentive of Power, money or greed. This would accomplish several things

1. an unprecedented historical, cultural record
2. A positive, humane, heartfelt change to corrupt cut throat Reality TV
3. A real time, interactive, open sourced Trust accounting design & dev.
4. an example on Transparency for world leaders
5. My own mental health Security & Protection From Deep State & Military Agents

https://www.kickstarter.com/projects/589866203/228352474/edit/plan

What you should have: I should have the basic essentials and a level of security to engage in higher pursuits (not just survival). I can work with a 20dollar smartphone from walmart or I can produce much higher

quality media if able to afford and store a laptop, computer, cameras and hard drives which I've lost in a recent divorce.

The research Is finished where a product can be deliver but research is always encouraged and an ongoing process as a means of maintaining growth as an individual and group. To create a workable timeline, checklist to bring the project to a simplified, organic and natural finish.

Detailed Description of Product Idea: versions: 1. Emergency and nonprofit news channel/multimedia digital magazine. Providing local, monthly (weekly, even daily) updates to local news, events, services tackling a wide range of social justice 2. The simplest, first model for ensuring nutrition requirements can be met in case of long-term disasters, blackouts, etc. 3. From there the R & D team can work upwards to create simple tech able to be produced on-location with renewable local materials. Beginning with and working up from basic essentials: essential nutrition (high density and low impact/space), warmth (fuel, shelters, garments), water (promoting organic and natural, non-additive storage, recycling and delivery system nonreliant on electrical system), and then to work upwards towards producing a diverse array of technology different for each city, culture and location (some may prioritize washing machine and dishwaters while others prefer to invest in transportation or portable and protected microgrid energy systems)
From first providing the space for this development to gradually increasing and improving in abilities and products, all centered around local design with net zero in mind.

A High-level development plan: The Plan will progress daily by a series of tasks which are open for public review and comment.

What we and your backers expect: The Backers should expect a digitally delivered multimedia magazine and the ability to monitor community led development of a space dedicated to emergency backup systems research and development

A business plan that includes:
How this product solves a problem
Who benefits from it

Your budget and distribution plan: I can create the rest without spending any funds by using free community services such as the public library and mobile devices I currently own. But if budgets are available I will not hesitate to put them to the best use, streamlining my teams progress reports for public comment and review

Potential risks, including legal and regulatory risks: The only risk has to do with receiving the payment and ensuring any copyrighted works are accounted for. Possible need to create originals of each image with copyright issues.

Early sketches or mock-ups of your product
Please view: "photorealistic magazine mockup" , archive.org accounts (endtheschism, sjb177, spencer_barrett) and more []

Research that supports your conclusions
Please view: Multiple Research References
